Prepared by Margaret McAleer and Edward Green, Jr., with the assistance of Paul Colton, Alys Glaze, John Monagle, Susie Moody, Kathryn Sukites, and Chanté Wilson
Collection Summary
Title: Glenn T. Seaborg Papers
Span Dates: 1866-1999
Bulk Dates: (bulk 1940-1998)
ID No.: MSS78514
Creator: Seaborg, Glenn T. (Glenn Theodore), 1912-1999
Extent: 370,000 items ; 1,015 containers plus 1 oversize and 4 classified ; 407.4 linear feet ; 13 microfilm reels
Language: Collection material in English
Location: Manuscript Division, Library of Congress, Washington, D.C.
Summary: Nuclear chemist, public official, and educator. Journals, correspondence, memoranda, minutes, reports, telephone and appointment logs, scientific research, speeches, writings, photographs, biographical material, newspaper clippings, and other printed matter documenting Seaborg's work as a nuclear chemist who codiscovered numerous chemical elements, as a professor of chemistry at the University of California, Berkeley, California, and as chairman of the Atomic Energy Commission from 1961 to 1971.

Selected Search Terms
The following terms have been used to index the description of this collection in the Library's online catalog. They are grouped by name of person or organization, by subject or location, and by occupation and listed alphabetically therein.

People
Compton, Arthur Holly, 1892-1962--Correspondence.
Eisenhower, Dwight D. (Dwight David), 1890-1969--Correspondence.
Gol'danskiĭ, V. I. (Vitaliĭ Iosifovich)--Correspondence.
Holifield, Chet, 1903- --Correspondence.
Johnson, Lyndon B. (Lyndon Baines), 1908-1973--Correspondence.
Joliot-Curie, Frédéric--Correspondence.
Joliot-Curie, Irène, 1897-1956--Correspondence.
Kennedy, John F. (John Fitzgerald), 1917-1963--Correspondence.
Lawrence, Ernest Orlando, 1901-1958--Correspondence.
McMillan, Edwin M. (Edwin Mattison), 1907-
Oppenheimer, J. Robert, 1904-1967--Correspondence.
Perlman, Isadore--Correspondence.
Petros'ian, A. M. (Andranik Melkonovich), 1906--Correspondence.
Seaborg, Glenn T. (Glenn Theodore), 1912-1999.
Seaburg family.
Segré, Emilio--Correspondence.
Stevenson, Adlai E. (Adlai Ewing), 1900-1965--Correspondence.
Truman, Harry S., 1884-1972--Correspondence.

Organizations
Atomic Scientists of Chicago.
Chemical Education Material Study.
International Union of Pure and Applied Chemistry.
Lawrence Berkeley Laboratory.
Lawrence Hall of Science.
Manhattan Project (U.S.)
U.S. Atomic Energy Commission--Officials and employees.

Plutonium--Storage--United States.
Plutonium.
Radioactive waste disposal.
Science projects--Competitions--United States.
Science--Soviet Union--International cooperation.
Science--United States--International cooperation.
Seaborgium.
Transuranium elements--Nomenclature.
Transuranium elements.
Westinghouse Science Talent Search.

Titles
Comprehensive Nuclear-Test-Ban Treaty (1996)

Occupations
Educators.
Public officials.
Scientists.

Administrative Information

Provenance
The papers of Glenn T. Seaborg, nuclear chemist, public official, and educator, were given to the Library of Congress by Seaborg and his estate between 1989 and 1999.

Additional Guides

Transfers
Audio recordings and a videotape have been transferred to the Library's Motion Picture, Broadcasting, and Recorded Sound Division where they are identified as part of these papers.

Copyright Status
Copyright in the unpublished writings of Glenn T. Seaborg in these papers and in other collections of papers in the custody of the Library of Congress has been dedicated to the public.
Access and Restrictions

The papers of Glenn T. Seaborg are open to research. Researchers are advised to contact the Manuscript Reading Room prior to visiting. Many collections are stored off-site and advance notice is needed to retrieve these items for research use.

Security Classified Documents

Government regulations control the use of security classified material in this collection. Manuscript Division staff can furnish information concerning access to and use of classified items.

Microfilm

A microfilm edition of part of these papers is available on thirteen reels. Consult reference staff in the Manuscript Division concerning availability for purchase or interlibrary loan. To promote preservation of the originals, researchers are required to consult the microfilm edition as available.

Preferred Citation

Researchers wishing to cite this collection should include the following information: Container number, Glenn T. Seaborg Papers, Manuscript Division, Library of Congress, Washington, D.C.

1954-1961  Associate director, Lawrence Berkeley Laboratory, Berkeley, Calif.

1957  Published with Joseph J. Katz *The Chemistry of the Actinide Elements* (New York: John Wiley and Sons. 508 pp.)

1958-1961  Chancellor, University of California, Berkeley, Calif.

1959-1961  Member, President's Science Advisory Committee

1959-1974  Chairman, Chemical Education Material (CHEMStudy) Steering Committee

1960-1961  Member, National Science Board, National Science Foundation

1961-1971  Chairman, Atomic Energy Commission

1963  Chairman, United States delegation for signing the “Memorandum on Cooperation in the Field of Utilization of Atomic Energy for Peaceful Purposes,” Moscow, USSR

1964  Member, United States delegation for signing the Limited Test Ban Treaty, Moscow, USSR

1963  Chairman, United States delegation, Third United Nations International Conference on the Peaceful Uses of Atomic Energy, Geneva, Switzerland

1971  Appointed university professor, Chemistry Department, University of California, Berkeley, Calif.

1976  President, American Association for the Advancement of Science

1981  Published with William R. Corliss *Man and Atom: Building a New World through Nuclear Technology* (New York: E. P. Dutton & Co. 411 pp.)

1981  Published with Benjamin S. Loeb *Kennedy, Khrushchev, and the Test Ban* (Berkeley, Calif.: University of California Press. 320 pp.)

1981-1983  Member, National Commission on Excellence in Education

1982-1998  Cofounder, director, and chairman, Lawrence Hall of Science, University of California, Berkeley, Calif.

1987  Published with Benjamin S. Loeb *Stemming the Tide: Arms Control in the Johnson Years* (Lexington, Mass.: Lexington Books. 495 pp.)

1994  International Union of Pure and Applied Chemistry approved the name “seaborgium” for atomic element 106

1998  Published *A Chemist in the White House: From the Manhattan Project to the End of the Cold War* (Washington, D.C.: American Chemical Society. 341 pp.)
Scope and Content Note

The papers of Glenn Theodore Seaborg (1912-1999) span the years 1866-1999, with the bulk of the material dating between 1940 and 1998. The collection documents Seaborg's career as a nuclear chemist, which included the discovery of plutonium in 1940, and as a public official who shaped United States nuclear policy as chairman of the Atomic Energy Commission (AEC) from 1961 to 1971. The collection reflects Seaborg's diligence as a thorough record keeper and touches on most facets of his long life and career. The papers are arranged in fifteen series: Journals; Historical File; General Correspondence; Societies, Committees, and Events; Atomic Energy Commission; University of California, Berkeley; Transuranium Research; Subject File; Speeches; Writings; Miscellany; Microfilm; Oversize; Classified; and Formerly Restricted Data.

The Journals series contains three versions of Seaborg's journals including notebooks in which he recorded his daily activities, a typed transcript prepared by his staff, and a printed copy produced by the University of California Press. Although most of the notebooks, which span the years 1942-1981, are original, the collection includes only redacted photocopies of notebooks dating from Seaborg's years as chairman of the Atomic Energy Commission. A typed transcript of the journals is available for the years 1927-1934 and 1961-1998. The transcript, produced from the notebooks, contains expanded journal entries supplemented by copies of relevant correspondence, memoranda, minutes, reports, programs, and printed matter. The printed journal covers the years 1927-1990 and, like the typed journal, consists of expanded journal entries and supplemental material. Some entries and documents included in the typed transcript are omitted from the printed journal. Most of the printed volumes include proper name indexes. Appended to the printed journal are volumes containing additional documents, clippings, and material from press conferences.

Seaborg strove to amass a thorough record of his activities. The Historical File series contains photocopies of documents which he assembled to chronicle his life from childhood to his assumption of the AEC chairmanship in 1961. Although the subject matter overlaps with other series in the collection, the Historical File includes material not available elsewhere in the papers. Of particular note are documents relating to his early transuranium research at the University of California at Berkeley, his work on the atomic bomb for the Manhattan Project, his membership on the first AEC General Advisory Committee, and his chancellorship of the University of California, Berkeley.

The General Correspondence series contains Seaborg's correspondence with American and foreign scientists, government officials, academic colleagues, science writers, and students. Prominent correspondents include Arthur Holly Compton, Dwight D. Eisenhower, V. I. Gol'danskii, Leslie R. Groves, Chet Holifield, Lyndon B. Johnson, Frédéric and Irène Joliot-Curie, John F. Kennedy, Ernest Orlando Lawrence, J. Robert Oppenheimer, Isadore Perlman, Andronik M. Petrosyants, Emilio Segrè, Adlai E. Stevenson (1900-1965), and Harry S. Truman.

The Societies, Committees, and Events series documents the breadth of Seaborg's professional associations outside the two institutional affiliations with which he is most often noted, the University of California at Berkeley and the Atomic Energy Commission. Files pertaining to professional scientific organizations, most notably the American Chemical Society, record Seaborg's attendance at conferences, service on committees and boards, and presidential terms. The series also contains material relating to Seaborg's associations with foreign scientists and international scientific organizations filed under the names of countries, organizations, or events. A large file relating to the Soviet Union contains material documenting American-Soviet exchange programs from the late 1950s to the mid-1970s. The often personal rapport Seaborg established with Soviet scientists is evident in this series as well as the General Correspondence.

The Societies, Committees, and Events files also document Seaborg's efforts on behalf of educational reform. The series chronicles his work on various federal and state educational panels, including the President's Science Advisory Committee from 1959 to 1961. Also included are files relating to educational projects such as Seaborg's chairmanship of the Chemical Education Materials Study, his participation in numerous science fairs, including the Westinghouse Science Talent Search, and his support for educational radio and television programming. Lastly, the series contains files relating to Seaborg's receipt of numerous awards and honors, most significantly the Nobel Prize in chemistry which he received with Edwin M. McMillan in 1951 for the discovery of plutonium. Although the Societies, Committees, and Events series provides a detailed account of more than sixty years of Seaborg's professional associations, researchers interested in contacts he...
maintained while chairman of the AEC during the 1960s should consult the Atomic Energy Commission series travel file as well.

The Atomic Energy Commission series largely concerns Seaborg's chairmanship of the commission. The bulk of the series consists of a travel file related to Seaborg's extensive domestic and foreign travel as chairman and composed primarily of a chronological file documenting individual trips through correspondence, briefings, reports, itineraries, lists of people met, and related publicity. Seaborg's travels to approximately sixty foreign countries included trips to the Soviet Union in 1963, 1969, 1970, and 1971. A separate geographical file contains background information for many of these countries, including material on meetings with foreign officials in Washington. A foreign trip file includes a list of all of Seaborg's foreign travel, copies of travel reports, and a compilation of letters written by him to United States presidents concerning the trips. The chronological file also documents Seaborg's domestic travel as well as events held locally in Washington, D.C. Seaborg's domestic travel included trips to national laboratories, attendance at committee and board meetings, and speaking engagements at colleges, universities, and conferences and before civic groups. In documenting these events, the Atomic Energy Commission travel file complements material found in the Societies, Committees, and Events series.

Also among the Atomic Energy Commission series are records of meetings and telephone conversations held by Seaborg during his tenure as chairman. Summary notes of meetings detail discussions on a broad range of issues from civilian use of nuclear technology to arms control. The file constituting an official record of his telephone calls and meetings, available in the collection only on microfilm, yields perhaps the most detailed recounting of Seaborg's meetings, providing a more thorough account than is recorded in his journals. The series also includes a file, deemed personal by AEC regulations, which reveals significant facets of Seaborg's chairmanship. Included are address lists, membership lists, congratulatory letters on his appointment and reappointments as chairman, employment and financial disclosures, and foreign national guest lists. Scrapbooks containing clippings, programs, and photographs are available on microfilm only.

The earliest material found in the Atomic Energy Commission series documents Seaborg's membership on various AEC committees prior to his chairmanship. Among other committee records, the file includes correspondence and minutes from Seaborg's participation in the commission's first General Advisory Committee from 1947 to 1950. The committee's work, which laid the foundation for a national nuclear policy, is further documented by copies of correspondence, minutes, and reports found in the Historical File series.

The University of California, Berkeley series consists primarily of administrative files following Seaborg's return to the university in 1971. The bulk of the series relates to the Chemistry Department, Lawrence Berkeley Laboratory, and Lawrence Hall of Science and their respective committee work, budget and fund-raising, and program development. A general administrative file concerns the campus at large and contains Seaborg's correspondence with the university's chancellor, president, and regents. Although the series contains very little concerning Seaborg's term as chancellor apart from congratulatory letters on his appointment, information about his chancellorship is available in his journals, the Historical File series, and notes assembled for his book, Chancellor at Berkeley, in the Writings series. Material concerning other University of California campuses and the university's management of Energy Department laboratories can be found in the Societies, Committees, and Events series.

The Transuranium Research series documents Seaborg's work as a scientist during the 1940s and 1950s, including his discovery of and exploration into the chemical properties of transuranium elements. The bulk of the series concerns his work at Lawrence Berkeley Laboratory before and after World War II and at the Metallurgical Laboratory in Chicago during the war. While raw scientific data preserved in the series is fragmentary, correspondence, memoranda, reports, and logs detail the results of the laboratories' scientific work and reveal the myriad administrative issues involved in operating both facilities. During the last thirty years of his life, Seaborg collected numerous documents recording personal experiences at the laboratories including personnel records, room assignments, floor plans, and staff recollections.

The Transuranium Research series also contains a patent file useful in tracing the evolution of intellectual property rights in the nuclear science field and as a valuable source documenting Seaborg's scientific work. Seaborg held more than forty patents for his scientific discoveries, including the only patents issued for chemical elements. Also featured in the series is a file Seaborg titled “Social and Political Implications of Scientific Research” reflecting the attempts on the part of scientists, many of them working on the Manhattan Project, to cope with the moral implications of their scientific research. Included are correspondence, minutes, statements, legislation, newsletters, and drafts of writings. The bulk of the material dates between 1945 and 1946 and appears to have been created or collected by the Atomic Scientists of Chicago.
The Subject File series contains background information on topics principally relating to nuclear science, such as nuclear medicine, nuclear waste disposal, and management of excess plutonium. Files on arms control document the Comprehensive Nuclear Test Ban Treaty which Seaborg supported. Also included are informational files on numerous transuranium elements, many of them discovered by Seaborg. Controversies surrounding the naming of new elements are explored in the series. A large file focuses in particular on the International Union of Pure and Applied Chemistry's initial rejection of “seaborgium” as the official name of element 106. More information concerning the international union's role in this issue can be found in the Societies, Committees, and Events series.

The Speeches and Writings series contain drafts of Seaborg's numerous speeches, articles, books, encyclopedia and atlas entries, and introductions, forewords, and prefaces. His speeches and articles focus particularly on his scientific research, peaceful uses of atomic energy, arms control, the history of nuclear science, education, and the environment. His books chronicle his scientific work, his chairmanship of the Atomic Energy Commission, and his chancellorship of the University of California at Berkeley. Seaborg received the assistance of Benamin S. Loeb in writing about his chairmanship of the AEC. Their collaboration is documented in this series and in the Benjamin S. Loeb Papers in the Manuscript Division.

The Miscellany series includes telephone and appointment logs maintained by Seaborg after the close of his AEC chairmanship. Also featured is a biographical file, photographs, family papers, and genealogical research into Seaborg's Swedish ancestry.

Security classified documents have been removed from the Seaborg Papers. Classified material withdrawn following the collection's transfer to the Library of Congress is listed in the Classified and Formerly Restricted Data series. Pink removal forms have been placed in the folders from which these items were removed. White forms indicate the removal of classified material by Energy Department officials prior to the collection's arrival at the Library. The Library does not have physical custody of this material.

**Organization of the Papers**

The collection is arranged in fifteen series:

- Journals, 1927-1998
- Historical File, circa 1922-1961
- General Correspondence, 1937-1999
- Societies, Committees, and Events, 1939-1999
- Atomic Energy Commission, 1944-1990
- University of California, Berkeley, circa 1939-1998
- Transuranium Research, 1930-1994
- Subject File, 1914-1998
- Speeches, 1940-1998
- Writings, 1936-1998
- Miscellany, 1866-1999
- Microfilm, 1957-1971
- Oversize, 1963-1996
- Classified, 1948-1971
- Formerly Restricted Data, 1961-1971
Description of Series

**Container**  
**Series**

**BOX 1-142**  
**Journals, 1927-1998**  
Three versions of Seaborg's journals including notebooks, a printed copy, and a typed transcript. In the printed and typed transcript versions, journal entries are supplemented by copies of relevant correspondence, minutes, reports, and printed matter filed immediately after each entry.  
Arranged alphabetically by type of copy and thereunder chronologically.

**BOX 143-253**  
**Historical File, circa 1922-1961**  
Photocopies of correspondence, minutes, reports, writings, scientific research, academic records, and printed matter documenting Seaborg's life prior to 1961, including his childhood, academic training, transuranium research, and chancellorship of University of California, Berkeley.  
Arranged chronologically.

**BOX 254-407**  
**General Correspondence, 1937-1999**

**BOX 254-384**  
**Alphabetical File, 1937-1999**  
Correspondence to and from scientists, government officials, academic colleagues, science writers, students, and others.  
Arranged alphabetically by name of correspondent.

**BOX 384-407**  
**Chronological File, 1971-1999**  
Correspondence consisting largely of copies of outgoing letters.  
Arranged chronologically.

**BOX 407-613**  
**Societies, Committees, and Events, 1939-1999**  
Correspondence, memoranda, minutes, reports, proposals, scripts, programs, conference proceedings, photographs, and printed matter documenting Seaborg's professional associations, including membership in scientific organizations, service on committees and boards, speaking engagements, attendance at conferences, appearances on television and radio, and receipt of awards and other honors.  
Arranged alphabetically by name of event, institution, or organization.

**BOX 614-737**  
**Atomic Energy Commission, 1944-1990**  
Correspondence, memoranda, minutes, reports, telephone and meeting logs, lists, notes, travel files, speeches, writings, photographs, and printed matter concerning Seaborg's membership on various AEC committees prior to 1961 and his chairmanship of the commission from 1961 to 1971.  
Arranged alphabetically by subject or type of material.

**BOX 738-769**  
**University of California, Berkeley, circa 1939-1998**  
Administrative files consisting of correspondence, memoranda, minutes, reports, financial records, personnel files, and printed matter relating to Seaborg's association with the university.  
Arranged alphabetically by subject or type of material.
**BOX 770-838**

**Transuranium Research, 1930-1994**

Correspondence, memoranda, minutes, reports, scientific data and notebooks, patent files, lectures, lists, personnel files, photographs, and printed matter concerning Seaborg's transuranium research at the University of California, Berkeley, and at the Metallurgical Laboratory in Chicago, Ill., as part of the Manhattan Project.

Arranged alphabetically by laboratory, subject, or type of material.

---

**BOX 838-861**

**Subject File, 1914-1998**

Correspondence, reports, writings, and printed matter concerning subjects such as the discovery of elements, nuclear medicine, arms control treaties, and nuclear waste management.

Arranged alphabetically by subject.

---

**BOX 879-950**

**Writings, 1936-1998**

Drafts, printed texts, outlines, correspondence, photographs, and research files relating to articles, books, encyclopedia and atlas entries, and introductions, forewords, and prefaces written by Seaborg.

Arranged alphabetically by type of publication. Articles are arranged chronologically by year of publication and alphabetically thereunder. Books, encyclopedia and atlas entries, and introductions, forewords, and prefaces are arranged alphabetically by title.

---

**BOX 862-878**

**Speeches, 1940-1998**

Lists and texts of speeches.

Organized as bound volumes and unbound speeches and thereunder chronologically.

---

**BOX 951-1015**

**Miscellany, 1866-1999**

Appointment and telephone logs, appointment books, autograph requests, biographical material, family papers, interviews, photographs, questionnaires, and travel files.

Arranged alphabetically by type of material.

---

**BOX 1015**

**Microfilm, 1957-1971**

Correspondence concerning the Nobel Foundation, records of the President's Science Advisory Committee, telephone and appointment logs, and scrapbooks.

Arranged and described according to the series, containers, and folders in which the material originally appeared.

Available only on microfilm. Shelf nos. *20,104 and **20,451.

---

**BOX OV 1**

**Oversize, 1963-1996**

Maps and a letter.

Arranged and described according to the series, containers, and folders from which the items were removed.

---

**BOX CL 1-CL 4**

**Classified, 1948-1971**

Journal entries, correspondence, memoranda, minutes, reports, and itineraries.

Arranged and described according to the series, containers, and folders from which the items were removed.

---

**BOX FRD 1**

**Formerly Restricted Data, 1961-1971**

Journal entries, correspondence, memoranda, minutes, and reports.

Arranged and described according to the series, containers, and folders from which the items were removed.

**Writings, 1936-1998**

Drafts, printed texts, outlines, correspondence, photographs, and research files relating to articles, books, encyclopedia and atlas entries, and introductions, forewords, and prefaces written by Seaborg.
Arranged alphabetically by type of publication. Articles are arranged chronologically by year of publication and alphabetically thereunder. Books, encyclopedia and atlas entries, and introductions, forewords, and prefaces are arranged alphabetically by title.

**BOX 879**
