# Sunlight can be kind or cruel

**C**AN you face the strong sunlight with confidence?

Is your skin so fine in texture, so soft and clear that you do not hesitate to be seen with your face bathed in sunshine? Scientists say strong sunlight is a thousand times stronger than ordinary electric light.

No matter what artifices you use—sunlight reveals the real condition of your skin. If you have blemishes, pimples, blackheads or enlarged nose pores, sunlight reveals them conspicuously. It shows up a rough, scaly skin, a shiny nose or a pallid, sallow complexion.

*You can look well in daylight, too*

There is no reason why your skin should *not* be clear and lovely, *always*. Do not dread to meet your friends in the daytime. Begin now to make your complexion as lovely from nine o'clock to six as it is from six to twelve.

The Woodbury treatments are based on this fundamental fact; every day a

change takes place in your skin. The old skin dies, new forms. This new skin, when treated by the lather of Woodbury's facial soap, can be rendered delightfully clear, smooth and free from all blemishes.

The Woodbury treatments cleanse the tiny pores of the skin, bring the blood to the surface, and improve its circulation. They stimulate the small muscular fibres. As the new skin forms, you are surprised at its clearness, its smoothness, its glowing color!

*Follow these directions carefully*

This Woodbury treatment, used nightly, should produce a marked improvement in a week or ten days. If kept up regularly, it will soften and beautify the very texture of your skin—and give you a complexion you will be proud of!

## How to make your skin lovely by daylight, too

First wash your face and neck with plenty of Woodbury's Facial Soap and warm water.

Next, work up a good, soapy lather in your hands with Woodbury's Facial Soap.

Rub the lather into the pores well, always with an upward and outward movement.

After rinsing with warm water and then cold, rub your face for a few minutes with a piece of ice.

Even the first treatment brings a ruddy glow, and leaves the skin smoother and clearer.
